

I am writing in support of Indiana's telephone privacy law. My phone number has been on the do-not-call list since the beginning and I am so pleased with the results! I do not want to receive sales calls and the past 10+ months have been so much nicer without the phone ringing constantly with a telemarketer on the other end trying to sell me something I do not want or need. I have a young child at home and I do not want the distractions of unnecessary phone calls. I urge you to you leave Indiana's law alone and do not create any federal laws which would weaken our state law.
Thank you!
